NEW

Reversible Apron

Techset Reversible Apron provides two different colours to facilitate wearing both sides according to your mood and environment.

Available with / without attached thyroid collar.

Coat Apron (Velcro Type)

Techset Coat Apron is stylish and provides the highest possible levels of comfort without compromising on quality.

Its comfortable design prevents fatigue for prolonged periods of time.

Economy Apron (Belt Type)

Techset Economy Apron is economically designed to provide comfort without compromising on quality.

Its belt-type fitting provides a unique flexibility and durability to the product.

Wrap Around Apron (Double Sided)

Convenience is another name for the **Techset Wrap Around**. Apart from providing all-round protection, it also fits the body comfortably enough to help prevent discomfort when worn for longer periods of time.

Skirt & Vest

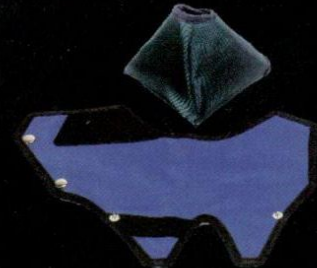

Techset Skirt-Vest duo is a 2-piece protective gear for those who wish to be clad in style. It is a hot favourite among radiologists and their colleagues who have to keep moving in and out of the X-ray room.

Ovarian Shield

Gonad Shield

Techset Ovarian & Gonad Shield ensures that the male genital region and female ovarian region is adequately shielded against X-ray penetration.

Care has been taken to avoid irritation to men wearing Gonad Shield & women wearing Ovarian Shield.

Mini Apron

When you require protection only below the abdomen, **Techset Mini Apron** scores a notch above others.

Stylish, elegant and light-weight are of the attributes of the Mini Apron that make it a preferred choice of radiologists.

Dental Apron

Techset Dental Apron with attached thyroid collar is the best X-ray protection that a dentist can give to patients.

Light-weight & comfortable, assures patient's safety while helping you bid good-bye to your radiation worries.

Thyroid Shield

Techset Thyroid Shield is the ultimate protection for the neck against X-ray radiation. While its neck-high design ensures complete covering upto the chin, its Velcro-belt offers the flexibility to fit any neck size.
