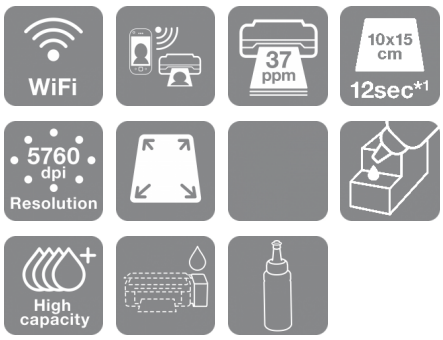
L805

DATASHEET



An A4 6-colour photo printer with integrated ink tank, delivering ultra-low-cost photos with wireless connectivity.

Photo printer with Wi-Fi, delivering low-cost and Epson-quality 6-colour photo printing with the convenience of an integrated ultra-high-capacity ink tank. Able to print from phones and tablets, the L805 allows photographers to easily connect and print their photos.

Say goodbye to cartridges

An integrated ink tank system delivers cost-effective photo prints. The ultra-high-capacity ink tank, utilising 70ml ink bottles, can print up to 1,900 quality 10x15cm photos for an ultra-low cost per page[1]. Refilling using individual ink bottles is quick and easy thanks to fast ink top-up technology, clearly labelled bottles and drip-free nozzles.

Easy to use and reliable

Primarily aimed at photographers, photolabs, advertising agencies, educational organisations and other users after an ultra-low cost per print solution for wireless photo printing, and printing onto CDs or DVDs. It's easy to increase productivity and reduce downtime with hassle-free set-up and reliable printing. Print a 10 x 15cm photo in as little as 12 seconds[2], while the genuine integrated ink tank system with one year or 3,000 pages manufacturer warranty provides peace of mind.

Boost productivity

Wi-Fi connectivity and Epson Connect make printing from smartphones and tablets easy, while its compact, space-saving design makes it a great fit for most spaces. Expect quick-drying, smudge-free and consistent quality results from Epson's Micro Piezo technology and Epson genuine ink, which deliver prints with unrivalled durability, quality and reliability.

1. Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 29103 with replacement sets of ink. Quoted yields are NOT based on ISO/IEC 29102. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower.
