Pure power. Without a pause

The Shiny Sine Wave UPS from Su-Kam is here to make you expect more from your power back-up.

Being a Sine Wave UPS, it offers non-stop protection for your appliances and more efficiency for reduced power consumption.

Non-stop efficiency - for longer life of appliances

Su-Kam's Shiny UPS range ensures longevity of your appliances by providing distortion free electricity.

Non-stop protection - for peace of mind

Its superior HCLC (High Cut/Low Cut) Technology provides complete and constant protection to your appliances in case of any irregularities and disturbances in the grid supply, like short circuits, high voltage, low voltage and overload.

Non-stop back-up - for added convenience

Shiny's Slider selection switch lets you choose the output supply depending upon your load.

The automatic overload sensor - for sheer comfort

UPS overload can lead to big inconvenience and losses. But Shiny has built in alarms and LED lights on the front panel. In case of overload, Su-Kam's System Overload Alarm resets the UPS automatically.

Shhhh. Shiny means - non-stop silence

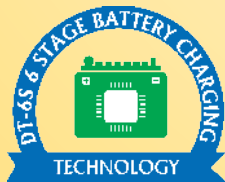

Shiny UPS automatically senses the power failure and switches to battery mode silently, without letting the user even notice that the power supply has failed.

SHINY 250VA / 12V

SHINY 1600VA / 24V

DT -6S technology provides effective de- sulphation of battery ensuring 10% faster charging and battery life increment of at least 30% over existing technology.

Benefits of DT-6S 6 Stage charger are :

- ✓ Optimum back up time from battery
- ✓ Fast and full charging, ultimately leading to get a longer battery life
- ✓ Does not require frequent water topping of battery hence reducing maintenance cost and efforts
- ✓ Controls the emission of harmful gases into the environment

LOAD CHART

SHINY 250VA /12V

Load*/Options	A	B	C
PC	1		
TV			1
Tube Light		1	1
Fans		1	
CFL		2	2

Recommended battery 50-70Ah

SHINY 450VA /12V

Load*/Options	A	B	C
PC	1		
TV			1
Tube Light			2
Fans		2	1
CFL	2	2	

Recommended battery 70-135Ah

SHINY 700 /12V

Load*/Options	A	B	C	D
PC	1			
TV			1	2
Tube Light	2	4	3	
Fans	2	3	3	
Room Cooler				1
CFL	1	1		2

Recommended battery 100-200Ah

SHINY 900 /12V

Load*/Options	A	B	C	D
PC	1			
TV		1		
Tube Light	3	3	4	2
Fans	3	3	4	3
Room Cooler				1
CFL	1	4	2	1

Recommended battery 100-200Ah

SHINY 1600 /24V

Load*/Options	A	B	C	D
PC	1			
TV		1		
Tube Light	7	8	6	4
Fans	7	8	6	4
Room Cooler				1
CFL	2	2	12	12

Recommended battery 100-200Ah

*Note: Indicative values only, actual calculation depends on manufacturer specifications. PC upto 150W, Tube Light of 40W, CFL of 11W, TV - 19-21", Ceiling Fan 48mm (3 Blades, 100-200mm sweep) and Room Cooler - 200W
